Agricultural Services Agronomist

ANY EXPERIENCE LEVEL

POSITION DESCRIPTION

Maurer-Stutz, Inc. is seeking to hire a graduate with a Bachelor of Science degree in engineering to fill an entry level position to continue growth of our existing agricultural services team. Maurer-Stutz currently maintains offices in Illinois and has projects throughout the Midwest. The position entails consulting with farmers and agribusinesses with particular emphasis on working with livestock and poultry production farms.

The ideal applicant has or will have a Bachelor of Science degree in agronomy, crop sciences, agricultural science or related field. Experience in livestock production is a plus. This role would support farmers and project teams through nutrient management planning, crop production consulting, conservation planning including conceptual planning for addressing concerns at existing facilities (CNMPs), and agricultural compliance services. Primary activities include nutrient management planning (NMPs and CNMPs), soils and manure sampling, land-application recommendations, conservation practice support, and collaboration with engineers on new and existing livestock facilities.

EXAMPLES OF RECENT AGRICULTURAL PROJECTS:

- Development of nutrient management plan and compliance recordkeeping for 1,430,000 bird expansion for a layer and pullet facility in Texas. This project included sampling of litter storage lagoons and development of a waste closure plan.
- Development of a nutrient management plan for a 6000 head new farrow to wean sow farm in Illinois.
- Maintenance of GIS based nutrient management recordkeeping and map platforms.

AGRICULTURAL SERVICES ENGINEER RESPONSIBILITIES:

- Prepare, write, and update Manure Nutrient Management Plans, NMPs, and Comprehensive Nutrient Management Plans (CNMPs).
- Evaluate soils, manure, and crop data; complete nutrient budgets; and develop land-application recommendations that protect water quality and meet crop needs.
- Support NRCS conservation planning and Technical Service Provider (TSP) deliverables, including RUSLE2, Phosphorus Index, and related resource-concern evaluations.
- Assist with permitting and environmental compliance for new and expanding livestock facilities, including CAFO/NPDES recordkeeping and required plan updates.
- Work with clients, engineers, client managers, and project managers on field investigations, producer meetings, and integrated facility planning.

BASE REQUIREMENTS:

- Bachelor's Degree in Agronomy, Crop Sciences, Agricultural Science, or related field.
- Certified Crop Adviser (CCA) or ability to obtain certification; NRCS TSP certification is a plus.
- Working knowledge and familiarity with livestock/poultry operations including dairy, beef, swine, layers, broilers, turkeys, etc. and midwestern US crop production. Desire to work directly with livestock and crop producers, including field work.

DESIRED QUALIFICATIONS:

- Experience with GIS, MMP, RUSLE2, or similar nutrient and conservation planning tools.
- Experience with ArcMaps and GIS based map services.
- Technical familiarity with agricultural and livestock production practices and systems.
- Attention to detail and good problem-solving skills
- Good written and verbal communication, interpersonal skills with strong time management and organizational skills.
- Competent use of Microsoft Office products.

WHY JOIN MAURER-STUTZ?

At Maurer-Stutz, Inc., we offer the best of both worlds—the expertise and impact of a top-tier engineering firm with the agility and close-knit culture of a small business. Our mission, *Working with you by design*, drives everything we do, from building strong client relationships to delivering high-quality solutions with integrity and collaboration at the core.

When you join our team, you're not just another employee—you're a valued contributor with direct opportunities to make an impact. As a small engineering firm, we provide early exposure to client interactions, project management, and leadership opportunities that larger firms often reserve for later in your career.

We value:

- Integrity – Doing what's right, always.
- Collaboration – Working together to create the best solutions.
- Quality – Setting the bar high in everything we do.
- Mentorship – Supporting your growth through hands-on learning and guidance.

If you're looking for a place where your work is meaningful, your growth is prioritized, and your contributions shape both projects and the company's future—Maurer-Stutz is the place for you. Join us and grow with a team that truly values your potential.

WHAT WE OFFER:

Competitive Compensation: Our annual salary range for this position is $50,000-$100,000, along with eligibility for an annual discretionary bonus. Relocation packages are available for qualified candidates.

GENEROUS BENEFITS:

- Performance Bonuses
- Regular Lunch and Learns and Professional Development Sessions
- Retirement Plan
- Group Health Insurance
- Life Insurance
- Disability Insurance
- Equal Employment Opportunity
- Work-Life Balance Initiatives
