

ENGINEERING SERVICES OVERVIEW

WHAT WE DELIVER

Maurer-Stutz Geospatial Services handles many assorted projects from a wide array of client types. Different clients and jobs mean different deliverables and being able to adapt to the needs of each project.

ABOUT US

MSGs delivers precise, data-driven geospatial solutions for complex challenges. From civil utility inventories to infrastructure planning and agriculture, we use advanced GIS tools for actionable insights. We streamline processes and enhance decision-making from start to finish.

HYDROLOGIC SYSTEM MODELING

We are able to deliver watershed and floodplain modeling to predict runoff, drainage behavior, and flood zones to help support advanced infrastructure design, risk evaluation, and water resource planning.

ADVANCED DATA ANALYSIS

MSGs can provide advanced spatial data processing, utility network modeling, and executive dashboards to support efficient infrastructure management.

ARCGIS ONLINE ADMINISTRATION

We provide setup and management of cloud-based GIS infrastructure for secure, scalable operations. Our services include hosting, access control, migration, and ongoing support.

ARCGIS SOLUTIONS

We create public-facing maps and GIS apps for utilities, infrastructure, and assets, along with mapping, workflow tools, and flexible consulting support.
