

SURVEY SERVICE OVERVIEW

WHAT WE DELIVER

Surveying is integral to Maurer-Stutz, Inc., enriching every facet of our operations. Our core focus is to deliver value to our clients through meticulous and precise surveys, whether for standalone purposes or as foundational data for projects. We ensure top-notch service by outfitting our survey crews with cutting-edge technology including GPS, robotic total stations, electronic data collectors, and UAS drones.

Quality control is paramount, maintained through rigorous procedures, redundant sampling, and frequent equipment calibration. Our highly educated staff, active in professional societies, undergo continuous education to stay at the forefront of advancements. With expertise spanning boundary, topographic, and utility surveys, among others, Maurer-Stutz, Inc. guarantees accurate and reliable results.
